What are the right tools?

With growing rate of data accumulation, there is an acute need for all researchers to learn about:

- Repeating common tasks
- cleaning/reading/processing data
- sharing code for common tools and methods
- collaborating with code

Departure point

Research organization leaders
seek to build sustained
capacity

Researchers need to build and
expand on data skills

Technical consulting

doesn't scale

Online training and MOOCS

can leave people frustrated, without a community to help them

Our approach is to build community

and capacity through peer instruction

What goes into preparing a workshop with

IMPACT

A background image showing three blue targets with concentric circles. Three arrows are visible, all of which have hit the center bullseye of the targets. The targets are slightly out of focus, creating a sense of depth.

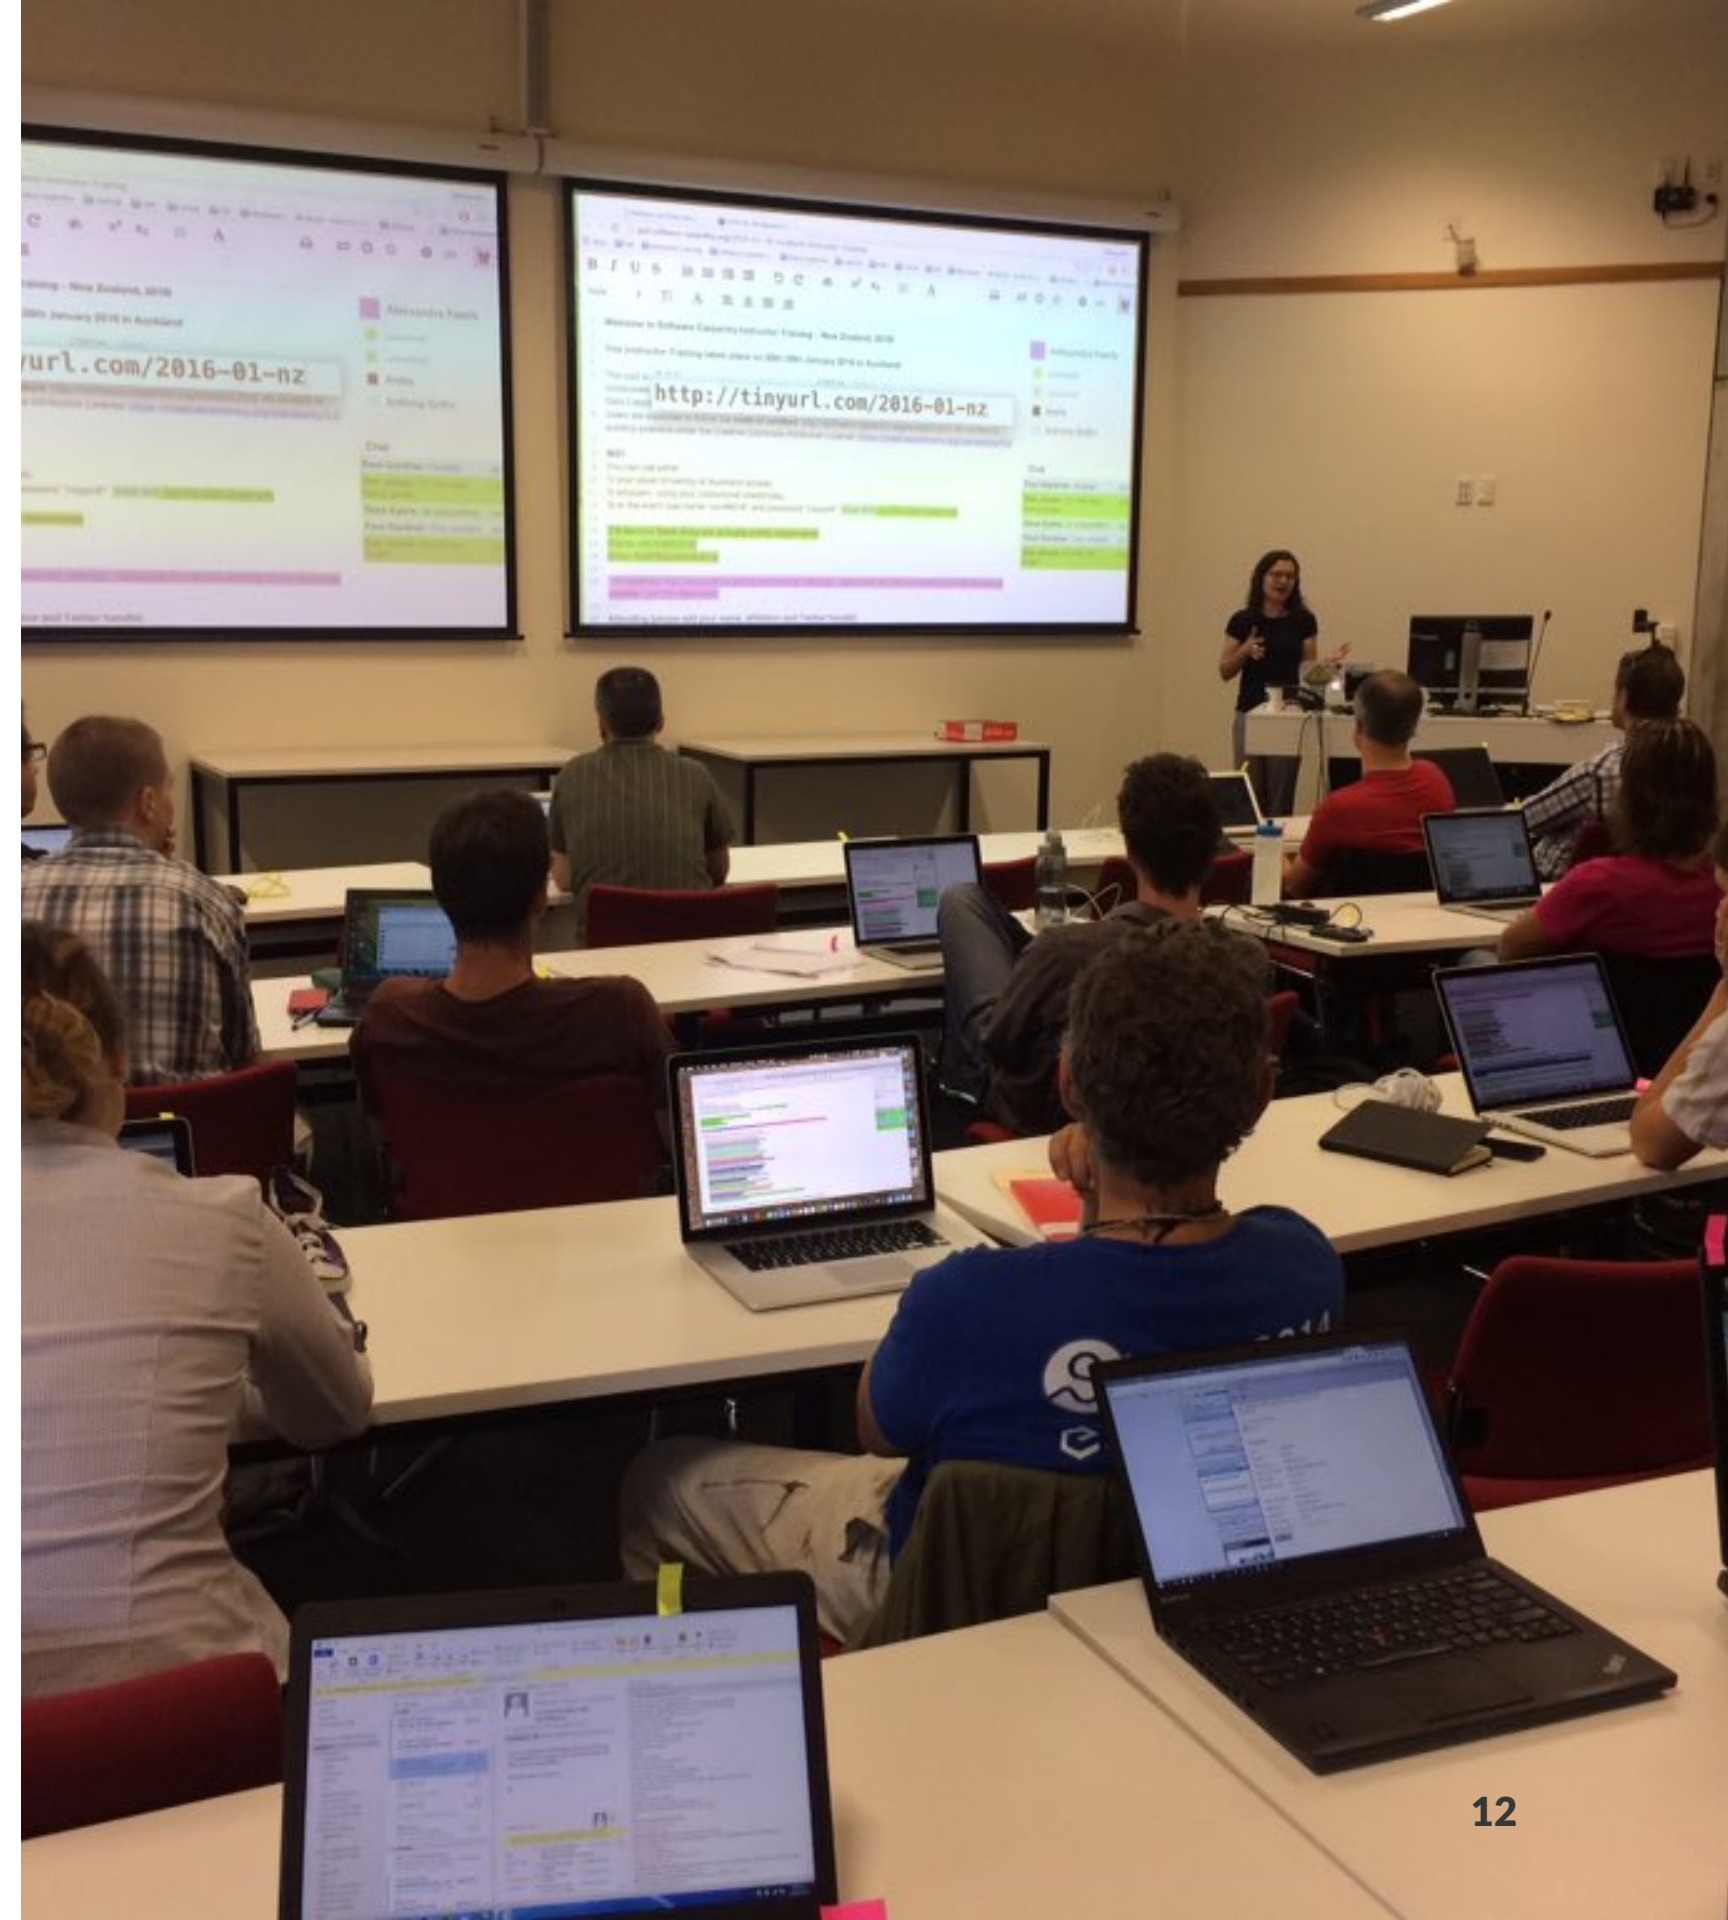

Impactful Workshops

- Trained volunteers
- Drawn from the research communities we serve
- Good community developed lessons
- Passion to apply the skills and spread the community
- A mission to change the culture of how research is done

Instructors

Instructor training

- We train researchers how to teach technical skills:
 - pedagogical approaches
 - take into account learner's background
 - reducing cognitive load
 - give and receive constructive feedback

Teaching as performance art

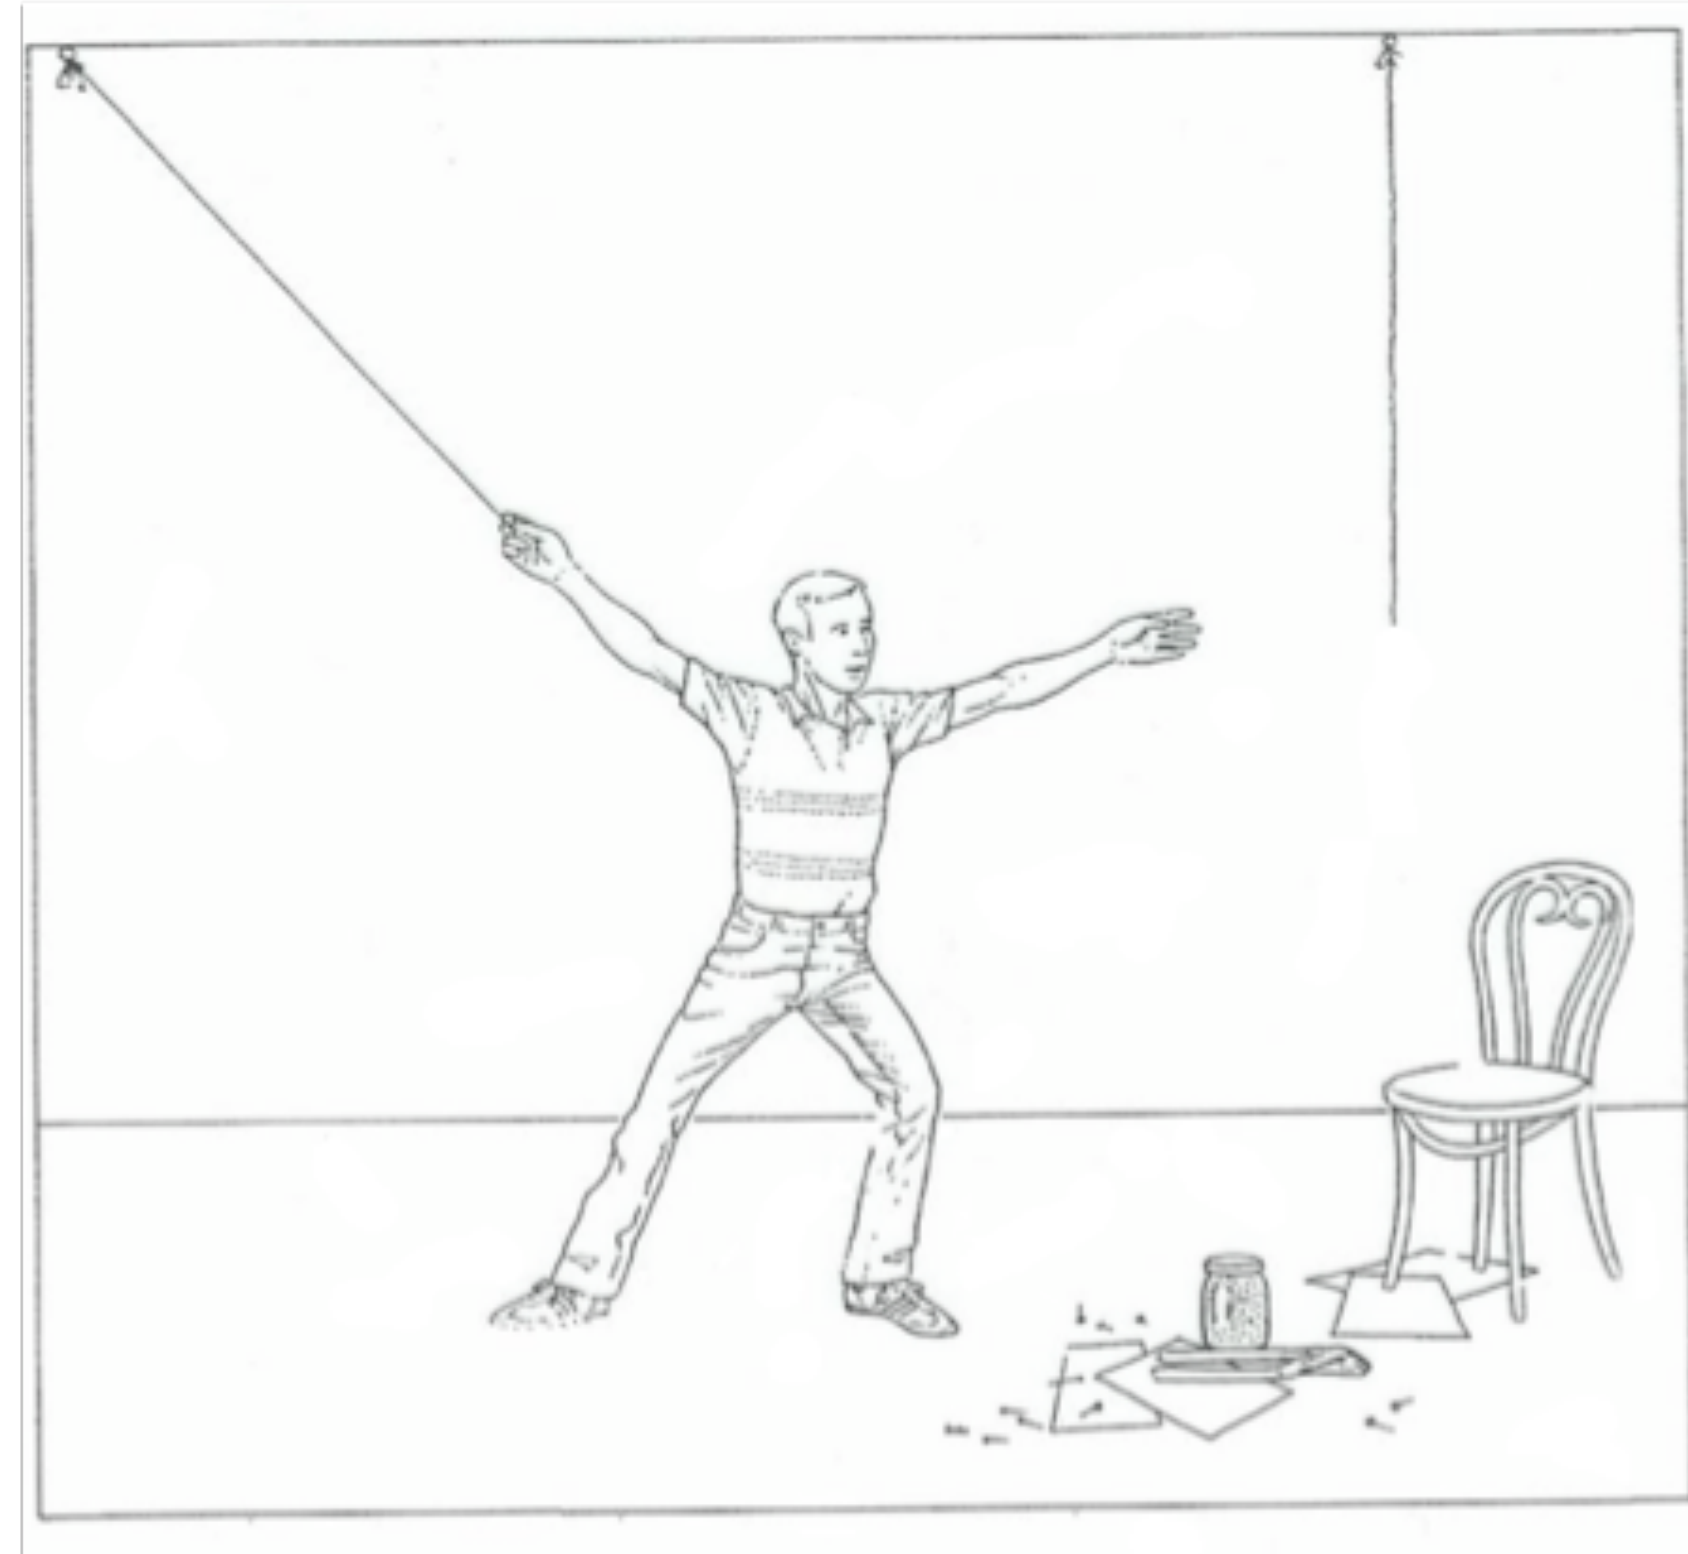

- Excitement
- Engagement
- Passion for the topic
- Improv
- Lessons are a loosely sketched script

Lessons

Preparing the unconscious mind

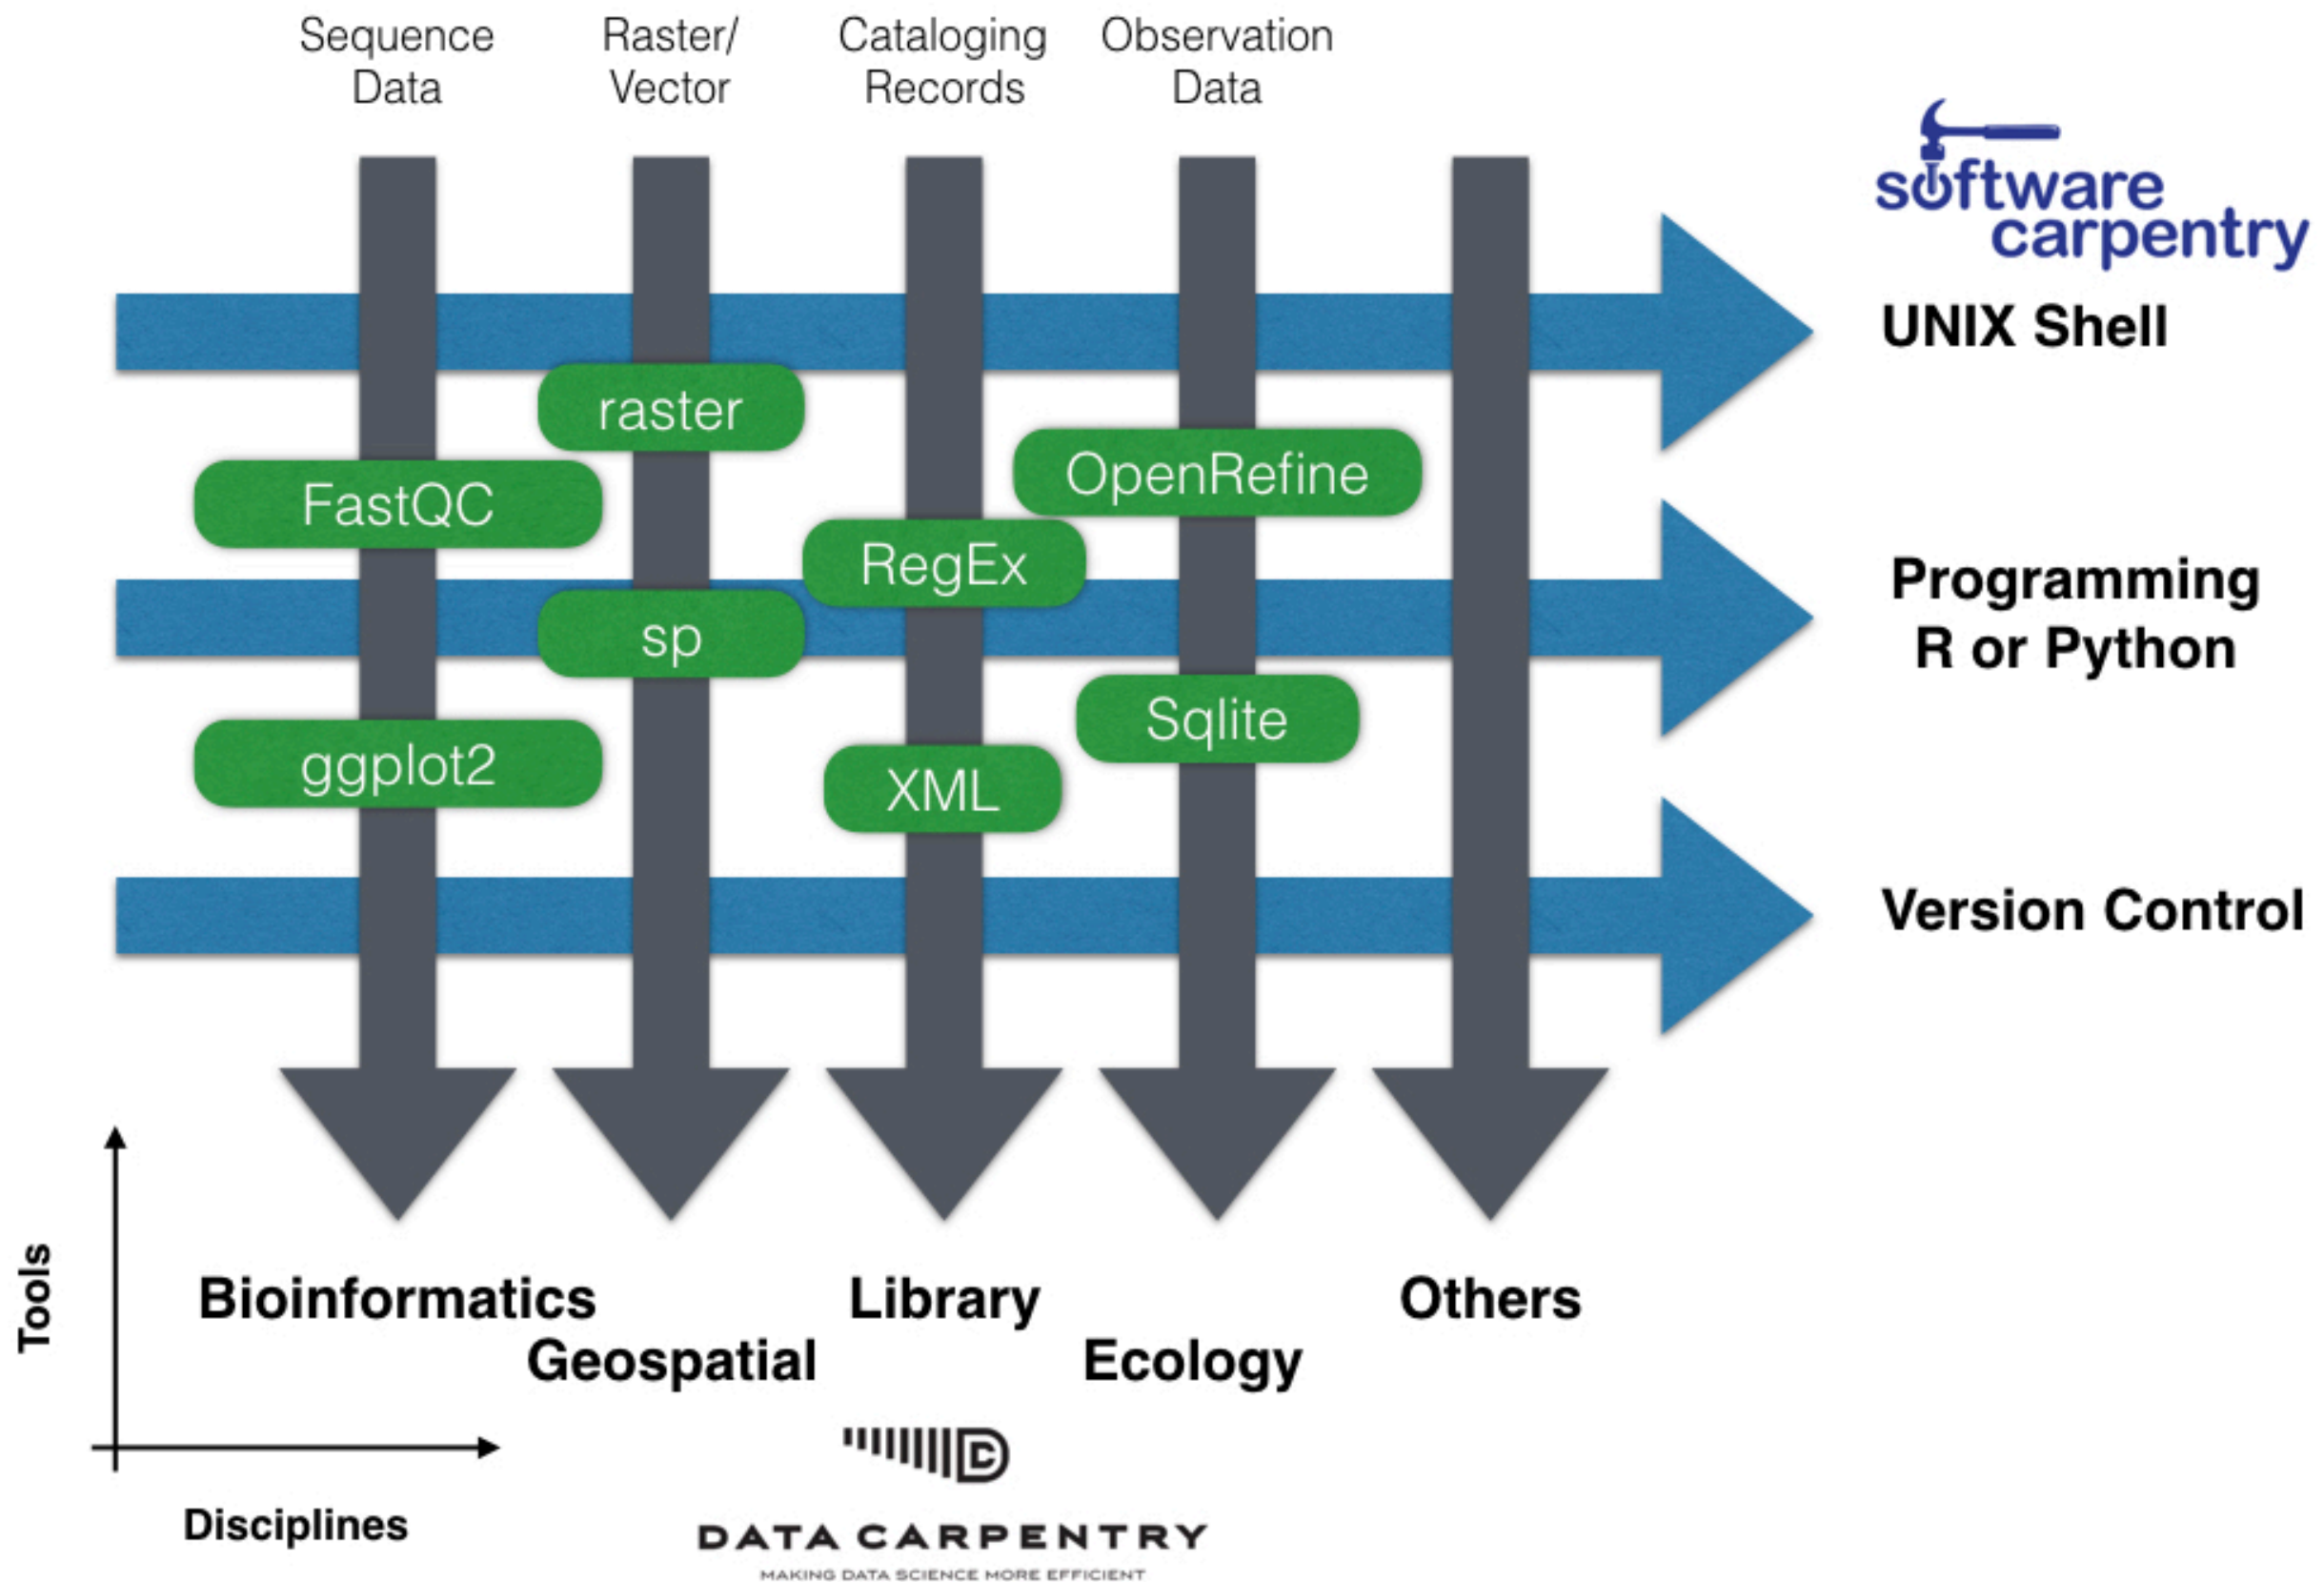

- Two day constraint
- N.R.F. Maier's two cords experiment
- Problem solving skills can be inaccessible to the conscious mind

Jugyokenkyu - lesson study

- Coordinated collaboration, testing and continuous improvement of lessons.
- Collaboration on lessons, conversation about teaching of lessons
- Instructor community that discusses the ongoing improvement of a lessons
- Kaizen of teaching

Lesson	Site	Repository	Reference	Maintainer(s)
The Unix Shell				Gabriel Devenyi , Ashwin Srinath
Version Control with Git				Ivan Gonzalez , Daisie Huang
Version Control with Mercurial				Doug Latornell
Using Databases and SQL				Abigail Cabunoc Mayes , Sheldon McKay
Programming with Python				Trevor Bekolay , Valentina Staneva
Programming with R				Daniel Chen , Harriet Dashnow
R for Reproducible Scientific Analysis				Thomas Wright , Naupaka Zimmerman
Programming with MATLAB				Isabell Kiral-Kornek , Ashwin Srinath
Automation and Make				Gerard Capes
Instructor Training				Greg Wilson

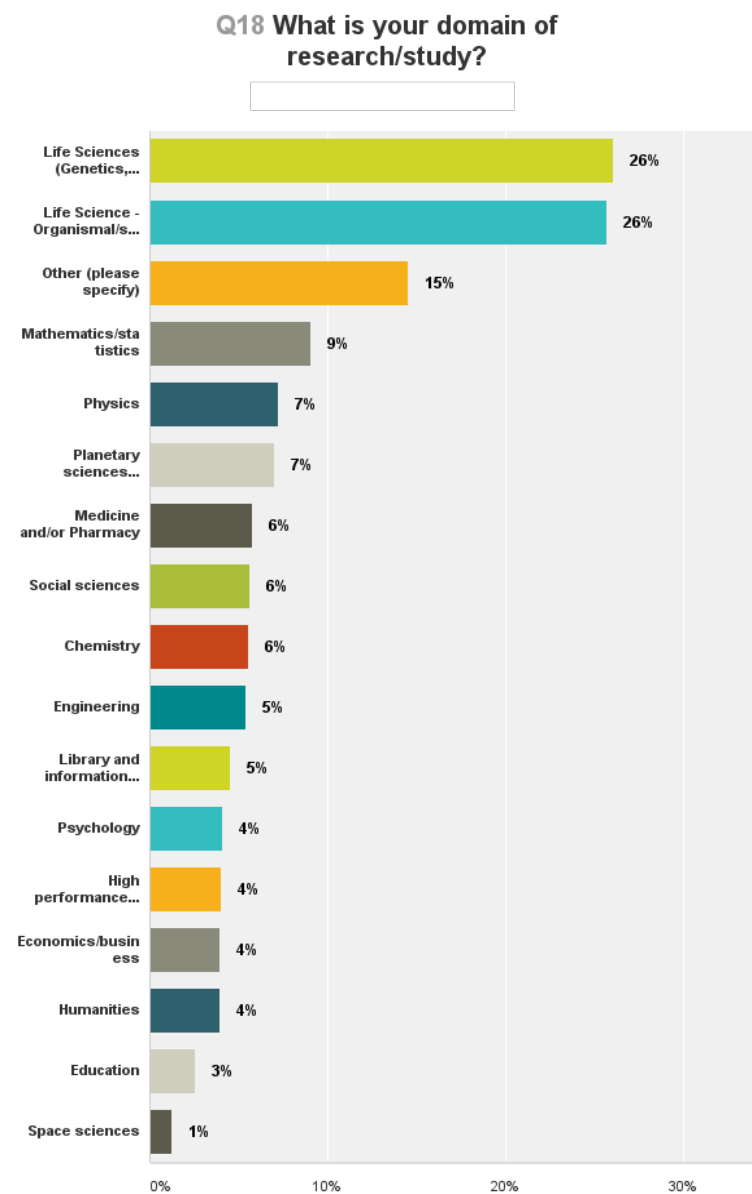

Community

- Cultivating a community and culture requires ongoing and intentional work
 - Code of Conduct and enforcement
 - Active mentoring of instructors
 - Collaborative lesson development

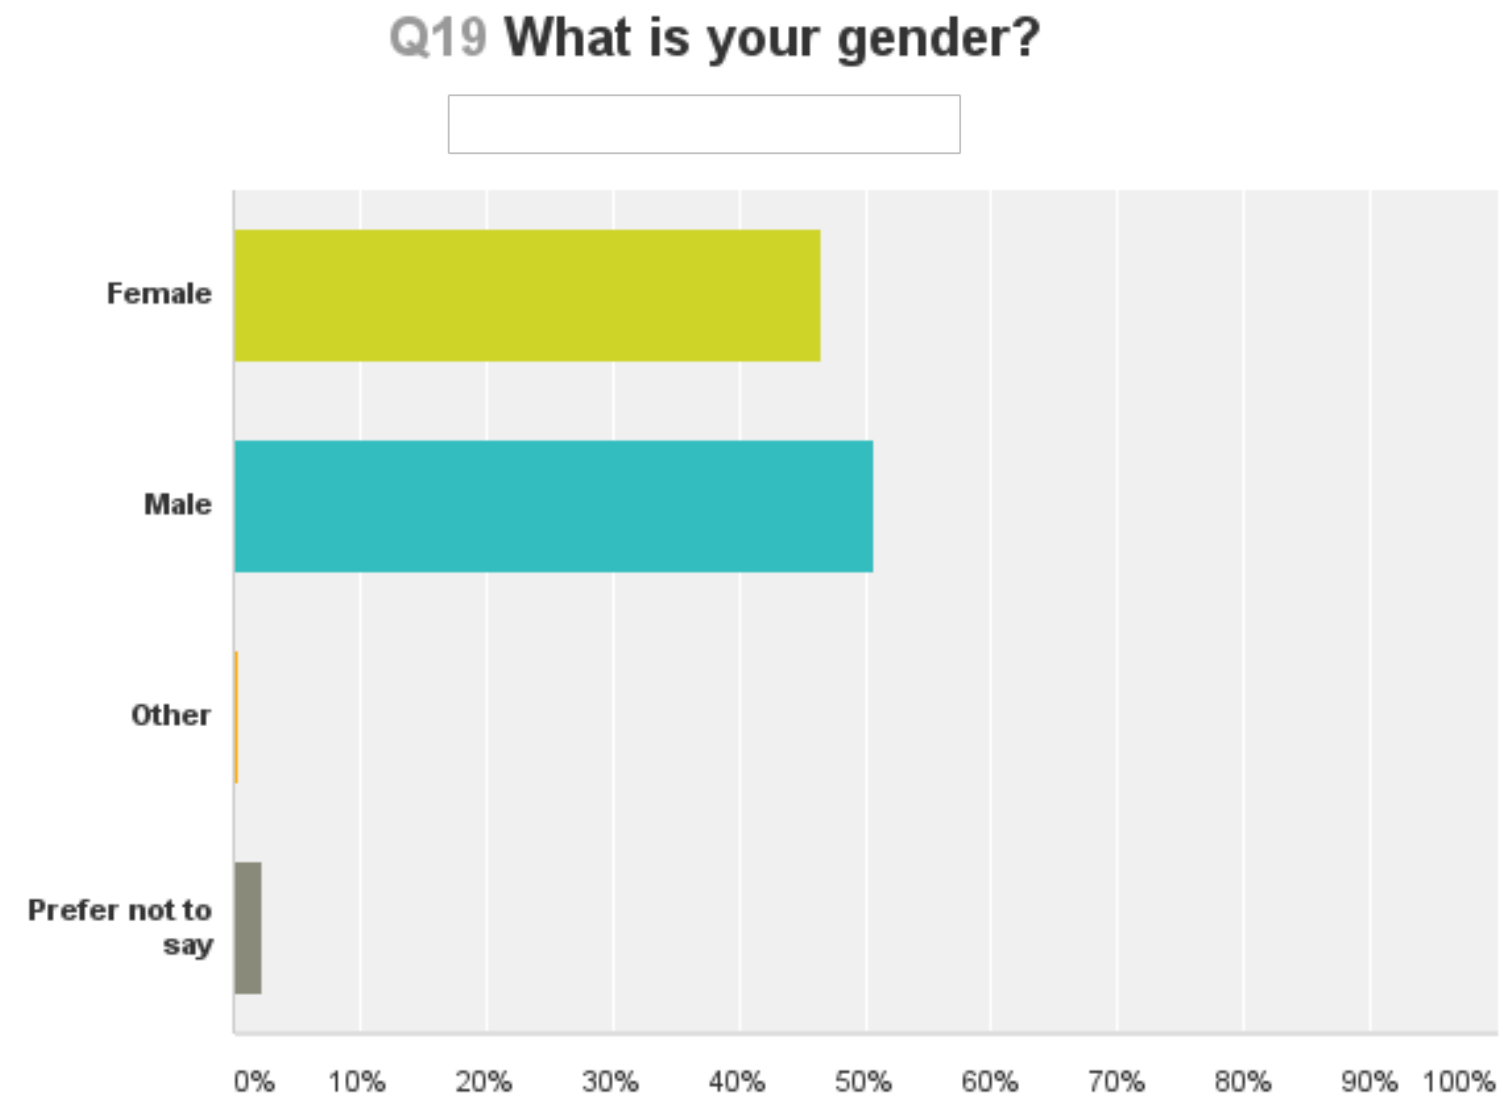

Learners

Our workshops are welcoming and relevant to all disciplines

We achieve a very good gender balance

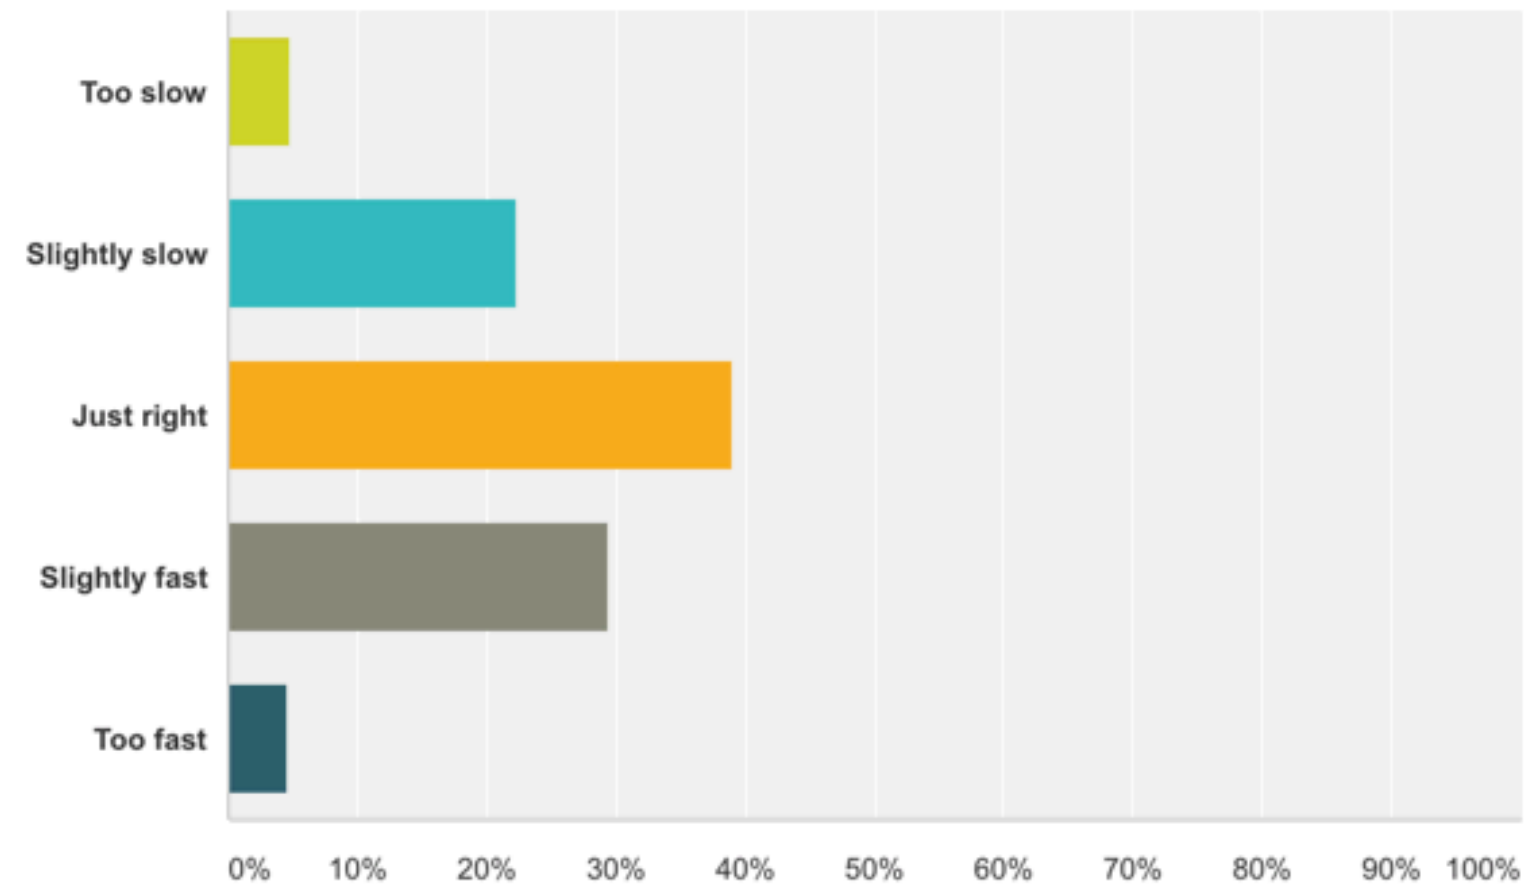

Results

	Strongly Disagree	Disagree	Neither Agree nor Disagree	Agree	Strongly Agree	Total	Weighted Average
▼ The amount of information covered at the workshop was reasonable for allotted time	1.72% 36	7.74% 162	8.50% 178	58.07% 1,216	23.97% 502	2,094	3.95
▼ The overall atmosphere of the workshop was welcoming	0.96% 20	0.72% 15	1.19% 25	29.91% 626	67.22% 1,407	2,093	4.62
▼ I learned skills that I will be able to use in my research/work	1.34% 28	1.63% 34	9.18% 192	47.94% 1,003	39.91% 835	2,092	4.23
▼ The material presented matched the workshop description	1.10% 23	2.67% 56	6.97% 146	45.03% 943	44.22% 926	2,094	4.29
▼ I would recommend this workshop to a friend/colleague	1.44% 30	2.20% 46	6.94% 145	40.02% 836	49.40% 1,032	2,089	4.34
▼ The workshop was worth my time	1.63% 34	2.83% 59	9.05% 189	43.39% 906	43.10% 900	2,088	4.24

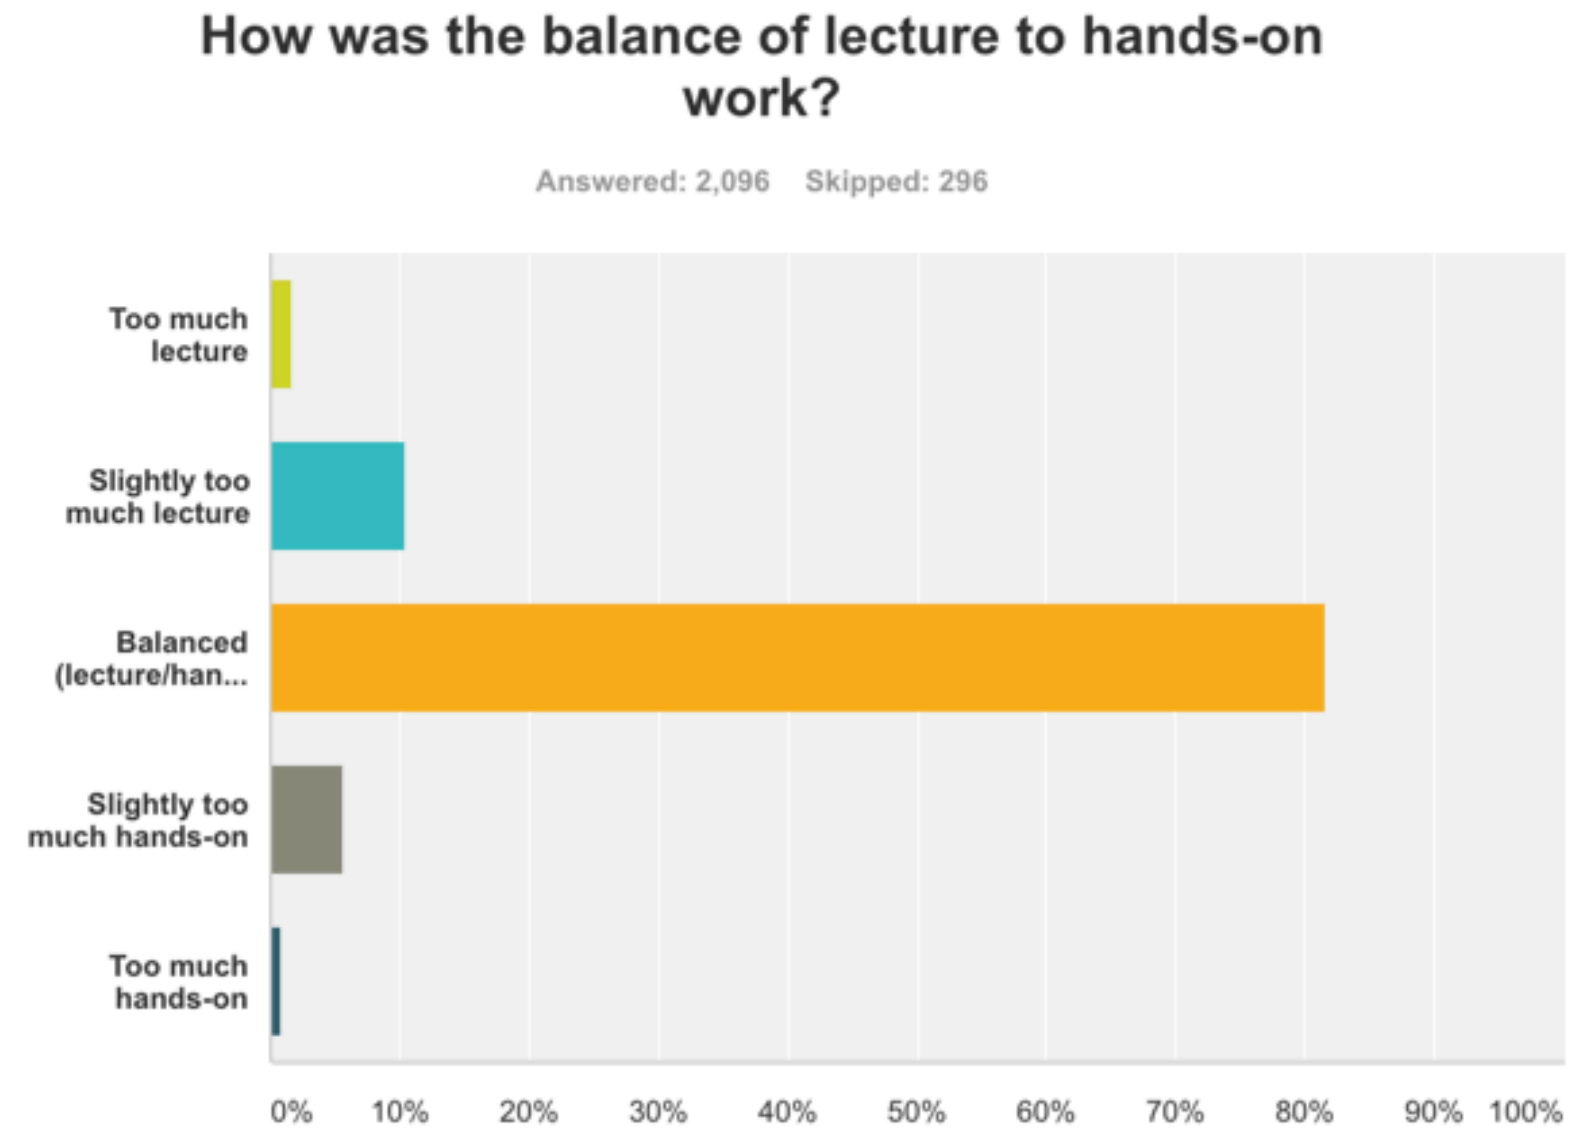

Adapting to learners

How did you perceive the pace of the workshop?

Answered: 2,094 Skipped: 298

Balancing demonstration and application

Learners perception of Instructors

	Never	Rarely	Sometimes	Often	All of the time	Total	Weighted Average
Instructors gave clear answers to your questions	0.24% 5	0.34% 7	4.55% 94	43.28% 895	51.60% 1,067	2,068	4.46
Instructors were considerate	0.19% 4	0.15% 3	2.42% 50	21.77% 450	75.47% 1,560	2,067	4.72
Instructors were good communicators	0.19% 4	0.68% 14	9.59% 198	36.56% 755	52.98% 1,094	2,065	4.41
Instructors were enthusiastic	0.19% 4	0.29% 6	3.87% 80	25.91% 535	69.73% 1,440	2,065	4.65

Motivating Future Learning

	Less motivated	Slightly less motivated	No change in motivation	More motivated	Much more motivated	N/A - Topic not covered	Total	Weighted Average
Unix shell	1.04% 20	1.35% 26	20.89% 402	45.11% 868	28.69% 552	2.91% 56	1,924	4.02
Git (version control)	1.81% 35	2.38% 46	15.63% 302	43.74% 845	34.01% 657	2.43% 47	1,932	4.08
Python	0.77% 14	1.37% 25	13.29% 243	28.72% 525	31.89% 583	23.96% 438	1,828	4.18
R	0.35% 6	0.58% 10	12.86% 223	17.19% 298	24.34% 422	44.69% 775	1,734	4.17
SQL	0.61% 10	0.79% 13	16.25% 266	10.45% 171	7.64% 125	64.26% 1,052	1,637	3.66
